AEDS JOURNAL SUBJECT INDEX

Volume 17, Numbers 1-4
October 1983 through June 1984

Academic Skills

Sorge, D.H., & Wark, L.K. "Factors for success as a computer science major." 17:4:36–45.

Administrative Computing

Tally, S. "Selection and acquisition of administrative microcomputer software." 17:1-2:69–82.

Spuck, D.W., Atkinson, G. "Administrative uses of the microcomputer." 17:1-2:83–90.

Administrative Applications

Huntington, F. "The microcomputer in the administrative office." 17:1-2:91–100.

Administrative Training

Dusseldorp, R. "A successful bootstrap program for infusion of computer competencies into a school of education curriculum." 17:4:9–13.

Attitudes Toward Computers

Goddard, W.P., & Pereira-Mendoza, L. "Three perspectives for computer applications in education." 17:3:14–23.

Business Management

Pierson, J.D., & Horn, J.A. "Syntactical errors in programs written by beginning students in business programming." 17:3:53–60.

Computer-Assisted Instruction

Roblyer, M.D. "Toward more effective microcomputer courseware through application of systematic instructional design methods." 17:1-2:23–32.

Bork, A. "Two examples of computer-based learning on personal computers." 17:1-2:49–54.

Swigger, K.M., & Swigger, B.K. "Social patterns and computer use among preschool children." 17:3:35–41.

Poore, J.H., & Hamblen, J.W. "Why computer-based education is making slow progress: An analysis of costs and other impediments." 17:3:42–52.

Goforth, D., & McCalla, G. "LEPUS: A language to support student initiative learning in non-mathematical domains." 17:4:14–29.

Teague, G.V., Wilson, R.M., & Teague, M.G. "Use of computer assisted instruction to improve spelling proficiency of low achieving first graders." 17:4:30–35.

Freeman, R.J. "Definition and evaluation of computer support systems for instruction." 17:4:46–55.

Computer-Based Instruction
Poore, J.H., & Hamblen, J.W. "Why computer-based education is making slow progress: An analysis of costs and other impediments." 17:3:42–52.
Computer Literacy
Bork, A. "Two examples of computer-based learning on personal computers." 17:1–2:49–54.
Sturdivant, P. "Technology training: In search of a delivery system." 17:1–2:55–56.
Randhawa, B.S., & Hunt, D. "Computers and computer literacy in contemporary psychological, socio-economic and educational context." 17:3:1–13.
Shively, J.E. "Computer utilization in education: Problems and prerequisites." 17:3:24–34.
Fary, B. "Computer literacy for staff development." 17:4:1–8.
Dusseldorp, R. "A successful bootstrap program for infusion of computer competencies into a school of education curriculum." 17:4:9–13.
Computer Science
Sorge, D.H., & Wark, L.K. "Factors for success as a computer science major." 17:4:36–45.
Computer Selection
Thomas, D.B., & McClain, D.H. "Selecting microcomputers for the classroom: A rethinking after four years." 17:1–2:9–22.
Randhawa, B.S., & Hunt, D. "Computers and computer literacy in contemporary psychological, socio-economic and educational context." 17:3:1–13.
Computer Use
Shively, J.E. "Computer utilization in education: Problems and prerequisites." 17:3:24–34.
COBOL
Pierson, J.K., & Horn, J.A. "Syntactical errors in programs written by beginning students in business programming." 17:3:53–60.
Early Childhood Education
Swigger, K.M , & Swigger, B.K. "Social patterns and computer use among preschool children." 17:3:35–41.
Educational Computing
Berg, P., & Bramble, W.J. "Computers and the future of education." 17:1–2:101–108.
Exploratory Learning
Goforth D., & McCalla, C. "LEPUS: A language to support student initiative learning in non-mathematical domains." 17:4:14–29.
Futures
Berg, P.B., & Bramble, W.J. "Computers and the future of education." 17:1–2:101–108.

Higher Education
Sorge, D.H., & Wark, L.K. "Factors for success as a computer science major." 17:4:36–45.
Inservice Education
Fary, B. "Computer literacy for staff development." 17:4:1–8.
Instructional Computing
Thomas, D.B., & McClain, D.H. "Selecting microcomputers for the classroom: A rethinking after four years." 17:1–2:9–22.
Instructional Design
Roblyer, M.D. "Toward more effective microcomputer courseware through application of systematic instructional design methods." 17:1–2:23–32.
Instructional Objectives
Freeman, R.J. "Definition and evaluation of computer support systems for instruction." 17:4:46–55.
LOGO
Goforth, D., & McCalla, G. "LEPUS: A language to support student initiative learning in non-mathematical domains." 17:4:14–29.
Microcomputers
Thomas, D.B., & McClain, D.H. "Selecting microcomputers for the classroom: A rethinking after four years." 17:1–2:9–22.
Roblyer, M.D. "Toward more effective microcomputer courseware through application of systematic instructional design methods." 17:1–2:23–32.
Bork, A. "Two examples of computer-based learning on personal computers." 17:1–2:49–54.
Huntington, F. "The microcomputer in the administrative office." 17:1–2:91–100.
Microcomputer Applications
Spuck, D.W., & Atkinson, G. "Administrative uses of the microcomputer." 17:1–2:83–90.
Programming
Pierson, J.K., & Horn, J.A. "Syntactical errors in programs written by beginning students in business programming." 17:3:53–60.
Social Impact
Randhawa, B.S., & Hunt, D. "Computers and computer literacy in contemporary psychological, socio-economic and educational context." 17:3:1–13.
Social Patterns
Swigger, K.M., & Swigger, B.K. "Social patterns and computer use among preschool children." 17:3:35–41.
Software Evaluation
Holznagel, D.C. "Evaluating Software." 17:1–2:33–40.
Klassen, S. "Computer literacy revisited." 17:1–2:41–48.
Talley, S. "Selection and acquisition of administrative microcomputer software." 17:1–2:69–82.

Freeman, R.J. "Definition and evaluation of computer support systems for instruction." 17:4:46–55.

Software Selection

Holznagel, D.C. "Evaluating Software." 17:1–2:33–40.

Klassen, D. "Computer literacy revisited." 17:1–2:41–48.

Talley, S. "Selection and acquisition of administrative microcomputer software." 17:1–2:69–82.

Spelling

Teague, G.V., Wilson, R.M., & Teague, M.G. "Use of computer assisted instruction to improve spelling proficiency of low achieving first graders." 17:4:30–35.

Staff Development

Fary, B. "Computer literacy for staff development." 17:4:1–8.

Teachers

Sturdivant, P. "Technology training: In search of a delivery system." 17:1–2:55–65.

Teacher Attitudes

Goddard, W.P., & Pereira-Mendoza, L. "Three perspectives for computer applications in education." 17:3:14–23.

Teacher Training

Van Dusseldorp, R. "A successful bootstrap program for infusion of computer competencies into a school of education curriculum." 17:4:9–13.

Technological Change

Klassen, D. "Computer literacy revisited." 17:1–2:41–48.

Berg, P., & Bramble, W.J. "Computers and the future of education." 17:1–2:101–108.

Training

Sturdivant, P. "Technology training: In search of a delivery system." 17:1–2:55–56.

Word Processing

Huntington, F. "The microcomputer in the administrative office." 17:1–2:91–100.

AEDS JOURNAL AUTHOR INDEX

Volume 17, Numbers 1-4
October 1983 through June 1984

Atkinson, G. "Administrative uses of the microcomputer." 17:1-2:83-90.
Berg, P. "Computers and the future of education." 17:1-2:101-108.
Bork, A. "Two examples of computer-based learning on personal computers." 17:1-2:49-54.
